

SECTION 4: FIRST AID MEASURES**4.1 Description of First Aid Measures****First Aid**

Inhalation: Remove person to fresh air. If irritation occurs or symptoms develop, get medical attention.

Skin contact: Remove contaminated clothing. Wash skin with soap and water. If irritation develops and persists, get medical attention. Launder clothing before reuse.

Eye contact: Immediately flush eyes with water for several minutes while lifting the upper and lower lids. Get medical attention if irritation persists.

Ingestion: Rinse mouth with water. Do not induce vomiting unless directed by medical personnel. Never give anything by mouth to a person who is unconscious or convulsing. Get medical attention if symptoms develop.

4.2 Most Important symptoms and effects, both acute and delayed: May cause mild eye irritation. Prolonged skin contact may cause mild irritation and drying of the skin. Inhalation of mists may cause upper respiratory tract irritation. Ingestion may cause gastrointestinal distress with nausea and diarrhea.

4.3 Indication of any immediate medical attention and special treatment needed: Immediate medical attention is not generally required.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing Media: Use water fog, alcohol foam, carbon dioxide or dry chemical to extinguish a fire involving this product. Do not use solid water stream as this may spread the fire.

5.2 Special Hazards Arising from the Substance or Mixture: Product is not flammable or combustible but may burn in a fire. Combustion products are hazardous and may include carbon, nitrogen, sulfur, phosphorous and zinc oxides.

5.3 Advice for Fire-Fighters: Firefighters should wear positive pressure self-contained breathing apparatus and full protective clothing for all fires involving chemicals. Cool fire exposed containers with water.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Protective Equipment and Emergency Procedures: Wear appropriate protective clothing and equipment as described in Section 8. Use caution – surfaces will be very slippery.

6.2 Environmental Precautions: Prevent spill from entering sewers and water courses. Report releases as required by local and national authorities.

6.3 Methods and Material for Containment and Cleaning Up: Contain and collect with an inert absorbent material. Place in an appropriate container for disposal. Clean spill area thoroughly.

6.4 Reference to Other Sections:

Refer to Section 8 for personal protective equipment and Section 13 for disposal information.

SECTION 7: HANDLING and STORAGE

7.1 Precautions for Safe Handling: Avoid breathing mists. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Keep away from open flames and hot surfaces.

7.2 Conditions for Safe Storage, Including any Incompatibilities: Store in a dry, cool, well-ventilated area. Keep in original containers. Store away from oxidizing agents.

7.3 Specific end use(s):**Industrial uses:** Industrial Lubricating Grease**Professional uses:** Industrial Lubricating Grease**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION****8.1 Control Parameters:**

| Chemical Name | EU IOEL | French OEL | German OEL | UK OEL |
|-------------------------------|------------------|------------------|------------------|------------------|
| Petroleum Paraffinic Base Oil | None Established | None Established | None Established | None Established |

8.2 Exposure Controls:

Appropriate Engineering Controls: Use with adequate general or local exhaust ventilation to minimize exposures levels.

Personal Protective Measures

Respiratory protection: None needed under normal use conditions. If exposure levels are excessive and irritation is experienced, an approved organic vapor/particulate respirator is recommended. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with EN Standards and good Industrial Hygiene practice.

Skin protection: Impervious gloves recommended if needed to avoid prolonged skin contact.

Eye protection: Follow facility requirements. Safety goggles recommended if contact is possible.

Other: None known.

SECTION 9: PHYSICAL and CHEMICAL PROPERTIES**9.1 Information on basic Physical and Chemical Properties**

Appearance (physical state, color, etc.): Blue grease

Odor: No characteristic odor

| | |
|--|--|
| Odor threshold: Not determined | pH: Not applicable |
| Melting point/freezing point: Not determined | Boiling Point: >600°F (>316°C) (petroleum base oil) |
| Flash point: >300.2°F (>149°C) (petroleum base oil) | Evaporation rate (butyl acetate =1): <1 |
| Flammability (solid, gas): Not applicable | VOC: Not determined |
| Flammable limits: LEL: 0.6% (petroleum base oil) | UEL: 7% (petroleum base oil) |
| Vapor pressure: Not determined | Vapor density: Not determined |
| Relative density: 0.9 | Solubility(ies): Insoluble in water |
| Partition coefficient: n-octanol/water: Not available | Auto-ignition temperature: Not available |
| Decomposition temperature: Not available | Viscosity: >20 cSt @ 40°C |
| Explosive Properties: Not applicable | Oxidizing Properties: Not oxidizing |

9.2 Other Information: None available

SECTION 10: STABILITY and REACTIVITY

10.1 Reactivity: Not reactive under normal conditions of use.

10.2 Chemical Stability: Stable.

10.3 Possibility of Hazardous Reactions: None known.

10.4 Conditions to Avoid: Extreme heat and open flames.

10.5 Incompatible Materials: Avoid oxidizing agents.

10.6 Hazardous Decomposition Products: Thermal decomposition may yield carbon and sulfur oxides.

SECTION 11: TOXICOLOGICAL INFORMATION**11.1 Information on Toxicological Effects:****Potential Health Effects:**

Inhalation: Inhalation of mists from heated product may cause minor irritation of the mucous membranes and upper respiratory tract.

Ingestion: Ingestion may cause gastrointestinal distress with nausea and diarrhea.

Skin contact: Prolonged skin contact may cause mild irritation and drying of the skin.

Eye contact: May cause mild irritation with redness and tearing.

Chronic Effects: None known.

Sensitization: Components are not known to be sensitizers.

Germ Cell Mutagenicity: No adverse effects are expected. Components are not germ cell mutagens.

Skin corrosion/irritation: None of the components have been shown to cause skin irritation or corrosion.

Eye damage/ irritation: None of the components have been shown to cause eye irritation or damage.

Respiratory Irritation: No data available. Expected to cause only temporary irritation.

Respiratory Sensitization: No data available.

Skin Sensitization: No data available. None of the components have been shown to cause skin sensitization.

Carcinogenicity: None of the components of this product are listed as carcinogens by IARC or the EU CLP.

Reproductive Toxicity: No adverse effects are expected. Components are not reproductive toxins.

Specific Target Organ Toxicity:

Single Exposure: No data available.

Repeat Exposure: No data available.

Aspiration Toxicity: No adverse effects are expected. None of the components pose an aspiration hazard.

Acute Toxicity Values:

Petroleum Paraffinic Base Oil: Oral Rat LD50 >5000 mg/kg, Inhalation rat LC50 >5.53 mg/L/4 hr, Dermal rabbit LD50 >2000 mg/kg

SECTION 12: ECOLOGICAL INFORMATION**12.1 Toxicity:**

Petroleum Paraffinic Base Oil: 96 hr LL50 Pimephales promelas >100 mg/L, 48 hr EL50 daphnia magna >10,000 mg/L, 96 hr NOEL Pseudokirchnerella subcapitata >100 mg/L

12.2 Persistence and degradability: Petroleum paraffinic base oil is inherently biodegradable.

12.3 Bioaccumulative Potential: Petroleum paraffinic base oil has the potential to bioaccumulate in aquatic organisms.

12.4 Mobility in Soil: No data available.

12.5 Results of PBT and vPvB assessment: Not required.

12.6 Other Adverse Effects: None known.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods: Dispose in accordance with all local, state and federal regulations. No specific disposal method is recommended. It is the responsibility of the user, at the time of disposal, to determine whether the product meets the criteria for hazardous waste.

| |
|---|
| SECTION 14: TRANSPORTATION INFORMATION |
|---|

| | 14.1 UN Number | 14.2 UN Proper Shipping Name | 14.3 Hazard Class(s) | 14.4 Packing Group | 14.5 Environmental Hazards |
|--------------|----------------|------------------------------|----------------------|--------------------|----------------------------|
| US DOT | | Not Regulated | | | |
| Canadian TDG | | Not Regulated | | | |
| EU ADR/RID | | Not Regulated | | | |
| IMDG | | Not Regulated | | | |
| IATA/ICAO | | Not Regulated | | | |

14.6 Special Precautions for User: None known.

14.7 Transport in Bulk According to Annex III MARPOL 73/78 and the IBC Code: Not applicable – product is transported only in packaged form.

| |
|---|
| SECTION 15: REGULATORY INFORMATION |
|---|

15.1 Safety, Health and Environmental Regulations/Legislation Specific for the Substance or Mixture

EU Regulations:

RoHS: Compliant

German WGK: 1

This SDS was prepared in accordance with EC No. 1907/2006 as amended. Classification under EC No. 1272/2008 as amended following the mixture rules.

15.2 Chemical safety assessment: Not required

| |
|--------------------------------------|
| SECTION 16: OTHER INFORMATION |
|--------------------------------------|

CLP/GHS Classification and H Phrases for Reference (See Section 3)
None

SDS Revision History: Convert to REACH GHS Format

Date of preparation: May 27, 2016

Date of previous revision: May 30, 2014
